

6 TH SEMISTER (AFTERNOON SERIES 1-2PM)

RESPIRATORY SYSTEM (12 lectures)

1. Applied anatomy and physiology of respiratory system, Pulmonary function test.
2. Infections of respiratory system - Pneumonias.
3. Chronic bronchitis, emphysema (COPD).
4. Bronchiectasis and Lung abscess.
5. Bronchial asthma.
6. Respiratory Malignancies.
7. Mediastinal and its diseases.
8. Pleural diseases, Pneumothorax, Pleural effusion
9. Occupational and restrictive diseases part I
10. Occupational and restrictive diseases part II
11. Fungal and parasitic diseases.
12. Respiratory emergencies and mechanical ventilation.

|-----------------------------|--|
| BATCH & SEMISTER | 2015 ABCD (6 TH SEMISTER) |
| W.E.F | From 01/01/2018 |
| LECTURE SERIES | RESPIRATORY SYSTEM |
| TEACHER | Dr V.S. Panchalwar |
| DAYS | Tuesday |
| TIME | 1-2PM |
| PLACE | MEDICINE LECTURE HALL |

PROFESSOR AND HEAD
DEPARTMENT OF MEDICINE,
GMCH, NAGPUR

COPY TO:

- 1) NOTICE BOARD, DEPARTMENT OF MEDICINE, GMC, NAGPUR.
- 2) NOTICE BOARD, STUDENT SECTION, GMC, NAGPUR.
- 3) GIRLS AND BOYS HOSTEL, GMC, NAGPUR

8 TH SEMISTER (MORNING SERIES 8-9AM)

NEPHROLOGY + GENETICS (10 Lectures)

NEPHROLOGY (8 Lectures)

1. Anatomy & physiology of urinary system, Renal function test.
2. Acute Glomerulonephropathy.
3. Chronic Glomerulonephropathy
4. Infections of Urinary system
5. Approach to Proteinuria, Hematuria, Renal colic, Nephrotic syndrome.
6. Acute Renal failure.
7. Chronic renal failure
8. Dialysis – diet – drugs in renal failure.

GENETICS (2 Lectures)

9. Genetics part I - (Introduction, Common genetic disorders).
10. Genetics part II - (common Genetic disorders, application of genetic engineering in medicine)

- 3) GIRLS AND BOYS HOSTEL, GMC, NAGPUR

8TH SEMISTER (AFTERNOON SERIES 1-2PM)

COLLAGEN VASCULAR DISORDERS + NUTRITION (14 Lectures)

COLLAGEN VASCULAR DISORDERS (10 Lectures)

1. Allergy concept, hypersensitivity, anaphylaxis.
2. Autoimmunity and autoimmune diseases
3. SLE
4. Anti-phospholipid antibody syndrome, Behcet's syndrome.
5. Systemic Sclerosis
6. Scleroderma
7. Sjogren syndrome
8. Rheumatoid arthritis
9. Seronegative arthritis
10. Vasculitis syndrome

NUTRITION (4 Lectures)

11. Concept of carbohydrate, fats, proteins, vitamins and minerals.
12. Vitamin deficiency states and PEM
13. Balanced diet and therapeutic diet.
14. Obesity
