

Post graduate seminar topics

- | | |
|--|--------------------------------|
| Management of open fractures | Tendon Repair |
| Techniques of closed reduction | Skin grafting |
| Antibiotic impregnated cemented nails | Malignant bone tumors |
| Shock | AVN Hip |
| Dressing Materials | Bone graft substitutes |
| Compartment syndrome | Traction Methods |
| DVT & Pulmonary Embolism | Rheumatoid Arthritis |
| Osteoporosis | TB Hip |
| Osteoarthritis | TB Spine |
| Acute Osteomyelitis | TB of Other Joints |
| Cauda Equina Syndrome | Splints & Braces |
| Evaluation of Skeletal Metastasis | Fracture Neck Femur |
| Osteoarthritis | Chronic Osteomyelitis |
| Osteoporosis | Congenital Dislocation of Hip |
| Rheumatoid Arthritis | Perthe's Disease |
| Rickets & Osteomalacia | Gait analysis |
| Orthopaedic manifestation in SCD | Peripheral Nerve Injuries |
| Ponseti management of CTEV | JESS Fixation |
| Prosthesis | Tourniquets |
| Examination of peripheral nerve injuries | Management of bone defects |
| Osteomyelitis | Potts Fracture |
| PFN in intertrochanteric fractures | High Tibial Osteotomy |
| Anatomy of joints | VIC |
| Amputation | Benign Bone Tumours |
| DVT & Pulmonary embolism | Compartment Syndrome |
| Closed reduction of cervical spine | Vascular injuries in fractures |
| dislocation | Orthopaedics and HIV |
| Clavicle fractures | |
