

**Systemic Pathology (n=26)**

Topic	Date
25. Cardiovascular system: Atherosclerosis, Ischemic heart disease, Myocardial infarction (Pathogenesis, Pathology)	
26. Cardiovascular system: Hypertension, Congestive cardiac failure, Peripheral vascular disease	
27. Cardiovascular system: Rheumatic heart disease	
28. Respiratory system: Chronic obstructive pulmonary disease	
29. Respiratory system: Pneumonia (Lobar pneumonia, Bronchopneumonia), Lung abscess, Adult respiratory distress syndrome	
30. Respiratory system: Tuberculosis: Primary, Secondary	
31. Respiratory system: Pleuritis, Pleural effusion, Lung Collapse (Atelectasis), Occupational respiratory diseases (with special reference to anthracosis, silicosis, asbestosis)	
32. Neuropathology: Reaction of nervous tissue to injury, infection, ischemia, Meningitis (Definition, pyogenic, tuberculous, viral), Leprosy	
33. Neuropathology: Cerebrovascular diseases: Atherosclerosis, Thrombosis, Embolism, Aneurysm, Hypoxia, Embolism, Hemorrhage, Hydrocephalus, Increased intracranial pressure	
34. Neuropathology: Parkinsonism	
35. Muscular disorders: Structure and function of muscle, Skeletal muscle atrophy, neurogenic and myopathic changes in muscle, Classification of muscular disorders	
36. Muscular disorders: Inflammatory myopathies, toxic myopathies	
37. Muscular disorders: Muscular dystrophies	
38. Neuromuscular junction: Myasthenia gravis, Myasthenic syndrome	
39. Bones and joints: Rickets, osteomalacia, osteoporosis	
40. Bones and joints: Osteomyelitis: Pyogenic, Tuberculous	
41. Bones and joints: Definition and classification of arthritis, Osteoarthritis, Calcaneal spur, Periarthritis, Spondylosis, rheumatoid arthritis, ankylosing spondylitis, Gout	
42. Bones and joints: Infections (Tuberculosis)	
43. Bones and joints: Hemarthrosis, prolapsed intervertebral disc	
44. Gastrointestinal tract: Peptic ulcer (gastric, duodenal), enteric fever, Tuberculosis of intestine, Enteritis, Gastritis due to NSAIDs	
45. Endocrine system: Hypothyroidism, Hyperthyroidism	
46. Endocrine system: Diabetes mellitus	
47. Hepatic diseases: Cirrhosis of liver: Definition, Classification, Morphology, Effects of portal hypertension	
48. Clinical Pathology: Anemia	
49. Clinical Pathology: Hemogram, Hemoglobin, TLC, DLC, Eosinophilia	
50. Muscle, skin, nerve biopsy, muscle necrosis
